Hakka 20"H Gas Kebab Machine Vertical Broiler with 2 Burners (KB-2)

Technical Data

Length	21"
Width	25"
Height	25"
Voltage	120V (US PLUG)
Manifold	4" W.C. for NG 10" W.C. for LPG
Power	3000W
RPM	4
Material	Stainless Steel
Total Input(btu/hr)	19,000(NG) 16,000(LPG)
Meat Capacity	45lb
Split Height	20"
Certification	ETL

Features

- Durable Stainless Steel Build – All-stainless steel body with side heat shields and oil collector; corrosion-resistant and easy to clean.
- Independent Infrared Burners – Two individually controlled burners deliver strong, stable heat output (19,000 BTU NG / 16,000 BTU LP).
- Adjustable Spit Distance – Spit-to-burner distance can be adjusted to match different meat thicknesses.
- Large 45 lb Capacity – Suitable for commercial batch cooking; 120V plug-and-play design for North American use.
- Compatible with Natural Gas & LP – Supports 4" W.C. (NG) and 10" W.C. (LP) manifold pressure with effective heat insulation for safer operation.

Certifications

ETL, US & Canada

ETL Sanitation

Notes & Details

This unit features a full stainless steel construction with heat shields and an oil collector for easier cleaning and safer operation. Two independent infrared burners provide steady, efficient heating, while the adjustable spit distance allows proper temperature control for different types of meat. The built-in continuous pilot enables quick ignition, and the heavy-duty low-speed motor helps ensure even cooking. Make sure the gas type and pressure match your installation, keep the unit in a well-ventilated area, and clean the oil collector and heat shields regularly to maintain performance and safety.
