Notes & Details

The efficient hot dog steamer is designed to keep up to 100 pre-cooked hot dogs and 48 buns hot and ready to serve all day. With separate compartments for hot dogs and buns, it ensures each receives the perfect amount of steam, keeping the hot dogs juicy and the buns soft without becoming soggy. The built-in adjustable moisture control for the bun compartment helps maintain freshness, while the full temperature control (85-175°F) allows you to serve perfect hot dogs and buns every time. Simply fill the water pan in the morning, set the temperature, and let the steamer do the work, making it ideal for carnivals, concessions, and vending carts. This 1300W steamer is perfect for high-volume use, keeping your products at the ideal temperature and humidity all day.
