## Notes & Details

The SMV12 is a commercial-grade electric sausage stuffer engineered for precision and high-volume output. It stands out with its ETL-Sanitation certification, guaranteeing it meets rigorous safety and hygiene standards required for professional food environments. Powered by an upgraded 200W motor, the unit provides consistent torque and features an intuitive variable speed control that allows operators to easily switch between delicate snack sticks and large-diameter sausages. The durable Type 201 stainless steel construction includes a user-friendly tilt-out canister for fast reloading and thorough sanitization. Complete with five stainless steel stuffing tubes (10mm, 16mm, 22mm, 32mm, and 38mm) and 4 specialized churro-making attachment, this machine is a versatile powerhouse for butchers, delis, and home enthusiasts seeking efficient, leak-free operation and professional-grade results.
